

## Potential Grantee Organizations

Below are some examples of the types of organizations we envision SAGC supporting. These are organizations that have a local base, and work to improve and contribute to South Asian-related areas - including the arts, politics, or other social areas in the community.

Ultimately, SAGC members will get to learn about and solicit applications from potential grantees, and determine which organizations we will support. But this list gives you an early idea of what great organizations are out there and need our community's support.
